

## DATA EXPLANATORY KEY

### N/A: Not Available

The string N/A in one or more cells of a table/s indicates that the information is not available. This string may appear in tables of different sections of the report such as: **livestock export quality prices in USD, food commodities retail prices in USD, number of exporters active in the market,** etc. Information may not be available due to:

### 1. Closure of livestock Market/s or food outlet/s.

This may be due to:

- (a) "Sanitary Measures" enforced by the competent authorities.
- (b). "National holidays and religious festivities" such as Independence Day, lid Al Fitr, lid Al Adha, and Mowlid.

### 2. Demand and Supply Side Problems

Transactions for a particular grade/s of export quality livestock (cattle, camels and small ruminants) may not take place due to lack of demand or shortage of supply.

### 3. Unforeseen Circumstances

These are due to unavailability of Price Collector/s and/or Broker/s for unpredictable conditions.

### 0: ZERO

The figure may appear in graphs and tables of different sections of the report. For example: **the number of animals of different species of export and domestic quality marketed, the number of heads of different species exported from Berbera, the total number of animals involved in the cross-border trade with Djibouti through Lowya Caddo,** etc. Livestock are not shipped daily from Berbera and days when there are no shipments are represented as 0 (ZERO) in the respective tables. Zero values should be similarly considered in the table of the cross border trade with Djibouti. In bar histograms the figure replaces the bar whenever the quantity of animals marketed is zero.

### "No Livestock/Chilled Meat/Hides & Skins Exported or Traded during the Period"

Each of these messages may appear in specific sections of the report without any other information displayed on the page. For example, if no chilled meat has been exported by H-Foods Ltd. during the month, the correspondent section of the report will show the message "No chilled meat exported by H-Foods Ltd. during the period." If no livestock have been shipped from Berbera during the period the list of vessels will be replaced by the message "No livestock exported during the period". If the livestock market has been closed for the whole month, the corresponding section/s of the report will show the message "No livestock traded during the period".
